

Input is an Ayrshire charity providing preparation for work for people with learning difficulties.

In these difficult times we are using our trainee's skills and our resources to help combat digital isolation in the community.

Our aim is to help people get online.

Input's partners can refer local people to be supplied with refurbished computer equipment.

Digital Inclusion

Our trainees prepare and support refurbished computers, tablets and phones. This equipment can be picked up from Input at Towerlands Community Centre, Towerlands Farm Road, Irvine by arrangement (Wednesdays and Fridays 10 - 3).

Support is available 1pm – 3pm Monday to Friday on 01294 441 404 or Text only 07591 530 679 or by email contact@inputcw.com

These devices are intended for people who otherwise would not be able to get online and must be over 18.

Please note limited availability (one per household) referrals will be prioritised on a waiting list. Final recipients details please.
